# CCM media Update

Our dear praying friends across the world, October is over, another great month! The Lord is really good to us, we see so much blessing! Life is very busy, lots of travelling. But we sense the progress and momentum of God's work!

### Meetings

We had number of good meetings. First, in Paris, with friends of Jesus.net, - the Internet ministry - trying to implement the best model of spreading the gospel and then inviting people to a measurable follow-up process, both on-line and off-line. So far there are 24 language versions available, but follow up work around the world differs from country to country. The reason for creating Jesus.net is to help all other co-

untries to raise the effectiveness of their follow -up. Jesus has called us to make disciples, not just to move people toward pressing a decision button. Here in Poland we've worked hard on this and have learnt by our own mistakes. Now we wish to share our discoveries with everyone who is interested. Our partners in Jesus.net are also offering some other ideas that we want to pick up, like a personal testimony site, "my story". How wonderful it is to cooperate and learn from each other!

You may wonder - why I am writing, more and more, about international involvement? Well, we see it as a next logical step in spreading out the Gospel. The Lord has brought our Polish ministry to a point

when we can, besides staying focused on our Polish outreach, share ideas and training with people from other countries. It has happened gradually, as the Lord was brought into our lives our some "divine appointments" like friends from Niger who started a Christian radio in the capital city there and desperately want training. Krzysztof was there, he was so touched that now we expect three people from Niger to visit us for several weeks of training and observing how we operate.

### New people

As you see in our newsletters, we have many opportunities to expand the ministry, focus more on true follow-up of people up to the point of seeing them jo-

ining small groups and, eventually, a church. This need grows exponentially so, after some prayer, we decided to employ more staff.

Yes, the work of coaching is based on volunteer involvement and will stay so, but there are so many technicalities that must be done in a full-time capacity! Software development, content development, organizing/coordinating translation and publishing, so we have invited two new students to help us! Finally, the pile of “work to do” is not growing, am so thankful. Now we have seven people under the age of 26, I am the oldest in the building. As we want to communicate with the next generation it is vital to employ capable young Christians who speak the language.

### Radio

Krzysztof and his team are working really hard to cope with the economic slowdown, so far, successfully. We continue to show small increases in the audience of Radio Fest and revenue from selling of advertisements. Moving a transmitter from Chorzow to Zabrze has made a significant difference.

### So much more...

1. We had a good, working meeting of our US New Europe Communications Board in Colorado Springs. We treasure very much that fellowship, but also great advice that we need a lot in our expanding work.
2. Polish Board meeting was also great, as we thank God for His great blessing and all the developments.
3. We have also some advancement on the mobile platform development. It should increase our reach twice to start with. So now we want to move all our materials, also follow-up tools to this new platform readable by literally all the phones and tablets!

### Epilogue

Please, continue to pray for us that we will be in the very center of God’s will and focused on Him, not mere activities, and have all the resources needed to fulfill His plan. We commit you to the Lord! Your prayers and support are a needed and appreciated part of what He is doing in Poland!

Henryk.
